

EK50ML ELECTROMECHANICAL CRIMPING TOOL

Klauke has brought the world's first electromechanical crimping pliers with PowerSense function into the market. This function describes pre-clamping by hand and crimping with a motor. This noticeably protects the wrist and forearm area. Maximum efficiency and maximum ease of use in one.

- ▶ 0.14 - 50 mm² crimping range
- ▶ max. 15 kN crimping force
- ▶ less than 1.5 sec. per crimp
- ▶ 400 crimps on 10mm² per charge
- ▶ weighs 0.96 kg. including battery

EKM6022CL

BATTERY-POWERED HYDRAULIC CRIMPING TOOL

- ▶ 6 - 300mm² crimping range
- ▶ 60kN crimping force
- ▶ crimp cycle 5 sec. (depends on the material)
- ▶ approx. 150 - 200 crimps at 150mm² Cu MS
- ▶ weighs 3kg. with battery
- ▶ 18V 1.5Ah battery

EK12642AP

BATTERY-POWERED HYDRAULIC CRIMPING TOOL

- ▶ 16 - 400mm² crimping range
- ▶ 120kN crimping force
- ▶ approx. 300 cycles at 185mm² Cu MS
- ▶ weighs 6.4kg. with battery
- ▶ 18V 3.0Ah battery

ESCU55AP

BATTERY-POWERED RATCHET CABLE CUTTER

- ▶ cuts up to 500mm² Cu, 630mm² Al
- ▶ 7-8 sec. cutting time depends on cable
- ▶ ~90 cycles (500mm² Armored Cu cable)
- ▶ weighs 3.4 kg. with battery

EK425CL

BATTERY-POWERED CUTTING & CRIMPING TOOL

- ▶ 54kN crimping force
- ▶ 10 - 300mm² crimping range
- ▶ crimp cycle 3-5 sec.
- ▶ cuts up to 35mm Cu/Al, max. 25mm ACSR, max. 10mm Cu bar
- ▶ weighs 2.0kg. with battery (w/o jaw)

ABOUT KLAUKE

Since 1879, Klauke stands worldwide for high-quality electrical connection technology and tools. For over 145 years, Klauke has offered special-purpose solutions for the most diverse high-tech and emerging sectors. Klauke offers tested and certified tools that provide control, safety and reliability with maximum efficiency and convenience.
