

CHFE NH FUSE LINK

The CHFE NH Fuse Link series is designed for use in 50Hz AC systems with rated voltages up to 500V. These fuse links offer dependable protection for electrical equipment against overloads and short circuits.

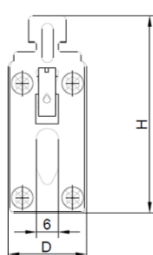

Key Features

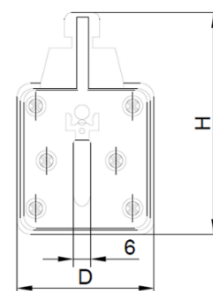

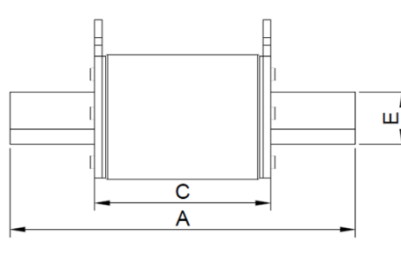

- Rated for up to **500V AC**, 50Hz systems
- Breaking capacity up to **120kA**
- **Compliance with IEC 60269** standards
- **Certified by TNB Malaysia (Sijil Guna Pakai)** except model CHFE-NH00-63
- Robust construction for dependable service life
- Double indicators for easy fault detection
