

MV GROUNDING KIT

For 7.2kV to 36kV Plastic and Paper Cable c/w Metal Tape Screen

Designed to create a secure path for fault currents or stray voltage to the ground.

Main features:

- Protection against electrical shock
- Prevent equipment from damage
- Stabilize voltage level
- Minimize risk of hazard (Fire)

Package list:

1. Constant force spring (3 units)
2. Copper braid (3 units)
3. Cable lug (3 units)
4. Installation instruction

Item Code	Diameter Over Screen (mm)	Application Range (mm ²)				
		7.2kV	12kV	17.5kV	24kV	36kV
