

TKLA-EKSD50ML

ELECTROMECHANICAL STRIPPING TOOL

Klauke electromechanical stripping tool with intuitive PowerSense function simplifies the process of stripping all common conductor types, offering precision and convenience of an electromechanical tool.

It delivers excellent stripping results with minimal effort, ensuring high-quality performance every time.

Features:

- One-button operating concept for controlling all tool functions
- Automatic retraction when operation is complete
- Manual retract as required
- Powerful 10.8V Li-Ion battery with charge status display
- LED for work area illumination
- Maintenance display via LED

Technical Data	
Stripping range	6 - 35mm ²
Stripping length	Up to 28mm
Cutting range	Up to 11.5mm diameter
Battery voltage	10.8V
Battery capacity	2.5 Ah, Li-Ion
Weight including battery	1.20kg

Note:

1. Suitable for stripping PVC cables only, not for PE or XLPE cables.
