

MV SCREENED SEPARABLE CONNECTOR

Chardon Screened Separable Connectors are used to connect polymeric cables to dead front equipment like transformers and switchgear. They meet IEC 60502 & HD 629 standards, are suitable for indoor and outdoor use, and comply with the interface requirements of EN 50180 and EN 50181. Compatible with copper and aluminum conductors up to 33kV, they include high-performance adapters for a wide range of cable sizes.

Features:

- Fully shielded, submersible connection with compatible bushings or plugs.
- Advanced adapter for optimized stress dispersion across various cable sizes.
- Complies with Type C, 630A & 1250A interface industry standards.
- Supports vertical, horizontal, and angled mounting.
- No minimum phase clearance required.
- Factory-tested for 100% electrical reliability.

11kV Front / Rear Screened Separable Connector

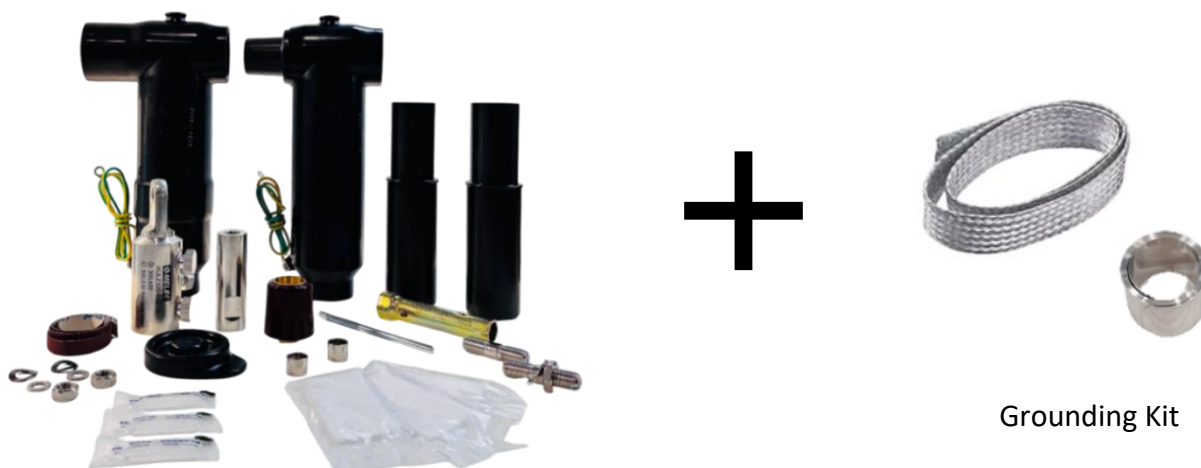

Item Code		Description	Diameter Over Insulation (mm)	Size Range (mm ²)
Front	Rear			
KMCD-24-F630-A1-50-70	KMCD-24-R630-A1-50-70	Chardon 11kV 1C 50-70mm ² Front / Rear Screened Separable Connector	12.5 – 19.5	50 - 70
KMCD-24-F630-A2-95	KMCD-24-R630-A2-95	Chardon 11kV 1C 95mm ² Front / Rear Screened Separable Connector	17.0 – 25.1	95
KMCD-24-F630-A2-120-185	KMCD-24-R630-A2-120-185	Chardon 11kV 1C 120-185mm ² Front / Rear Screened Separable Connector	17.0 – 25.1	120 - 185
KMCD-24-F630-B2-240	KMCD-24-R630-B2-240	Chardon 11kV 1C 240mm ² Front / Rear Screened Separable Connector	23.6 – 34.0	240
