

ELECTRICAL TAPES

Trusted Solutions for Electrical Insulation and Protection

For decades, 3M Electrical Tapes have set the industry benchmark for durability, ease of use, and high performance. Whether for low or high-voltage applications, 3M offers a comprehensive range of tapes that deliver exceptional insulation, sealing, moisture resistance and mechanical protection.

Backed by proven technology and global certifications, 3M tapes are engineered to perform in demanding environments with the following advantages:

- High dielectric strength for voltage reliability
- Excellent conformability on irregular surfaces
- UV, weather, and moisture-resistant options
- Easy application with long-term performance

Item Code	Item Description	Application	Roll Dimension
IATP-3M-SC23-19MM-T	3M Scotch® 23 Rubber Splicing Tape 19mm (W) X 9m (L) - 7012463615	Used for low and high voltage applications and joints up to 69kV.	19mm X 9m
IATP-3M-SC23-38MM	3M Scotch® 23 Rubber Splicing Tape 38mm (W) X 9m (L) - 7012496304	Used for low and high voltage applications and joints up to 69kV.	38mm X 9m
IATP-3M-SC2228	3M Scotch® 2228 Rubber Mastic Tape 50mm (W) X 3m (L) - 7000005986	Pads and insulates the damaged area, restoring jacket thickness and protection.	50mm X 3m
IATP-3M-SC2220-19MM	3M Scotch® 2220 Stress Control Tape 19mm (W) X 1.5m (L) - 7000089981	Changes voltage distribution in the electrical field surrounding a high voltage termination or joint. Reduce stress concentration to values found in continuous cable.	19mm X 1.5m

Item Code	Item Description	Application	Roll Dimension
MISC-3M-7000037836	3M Scotch® 2166 Mastic Strip 15mm (W) X 150mm (L) - 7000037836	Features a removable liner for easy application. Used in combination with vinyl electrical tape, it delivers excellent waterproofing, moisture resistance, and UV protection while providing cushioning and sealing.	15mm X 150mm
IATP-3M-SC33+-19MM	3M Scotch® Super 33+ Vinyl Electrical Tape 19mm (W) X 20m (L) - 7000042541	Provides strong electrical and mechanical protection with excellent resistance to UV, abrasion, moisture, alkalis, solvents, and acids. Flame-retardant, corrosion-inhibiting, and compliant with UL, CSA, and VDE standards.	19mm X 20m
IATP-3M-TF160-38MMBK	3M™ Temflex™ 160 Vinyl Electrical Tape 38mm (W) X 10m (L) - Black - 7100321416	Ideal for basic, less demanding indoor electrical and hardware applications, this tape is conformable and well-suited for general ambient indoor use.	38mm X 10m
IATP-3M-TF150-18MMBK	3M™ Temflex™ 150 GU Vinyl Electrical Tape 18mm (W) X 5m (L) -Black -7100347813	Perfect for basic electrical and hardware applications, this conformable tape is designed for less demanding indoor applications in standard ambient conditions.	18mm X 5m
